

Subtraction

Say and count as you write.

10 altogether. How many in the tent?

$$10 - 6 = 4$$

18 altogether. How many in the tent?

$$18 - 8 = 10$$

19 altogether. How many in the tent?

$$19 - \square = \square$$

21 altogether. How many in the tent?

$$21 - \square = \square$$

Say as you write.

$$16 - 4 = 12$$

$$18 - \square = 7$$

$$12 - \square = 2$$

$$20 - \square = 14$$

$$19 - \square = 5$$

$$15 - \square = 9$$

$$25 - \square = 4$$

$$27 - \square = 11$$

$$30 - \square = 10$$

Say as you write.

$$15 - 5 = 10$$

$$30 - \square = 0$$

$$16 - 0 = \square$$

$$23 - 10 = \square$$

$$40 - \square = 0$$

$$28 - 8 = \square$$

Subtraction

Say and count as you write.

10 altogether. How many in the tent?

18 altogether. How many in the tent?

19 altogether. How many in the tent?

21 altogether. How many in the tent?

Say as you write.

$$16 - 4 = 12$$

$$18 - 11 = 7$$

$$12 - 10 = 2$$

$$20 - 6 = 14$$

$$19 - 14 = 5$$

$$15 - 6 = 9$$

$$25 - 21 = 4$$

$$27 - 16 = 11$$

$$30 - 20 = 10$$

Say as you write.

$$15 - 5 = 10$$

$$30 - 30 = 0$$

$$16 - 0 = 16$$

$$23 - 10 = 13$$

$$40 - 40 = 0$$

$$28 - 8 = 20$$

Have children recall fact families for help in solving problems such as $21 - 5 = 16$ and $21 - 16 = 5$. Remind children that a number subtracted from itself gives a difference of zero.
