

Area

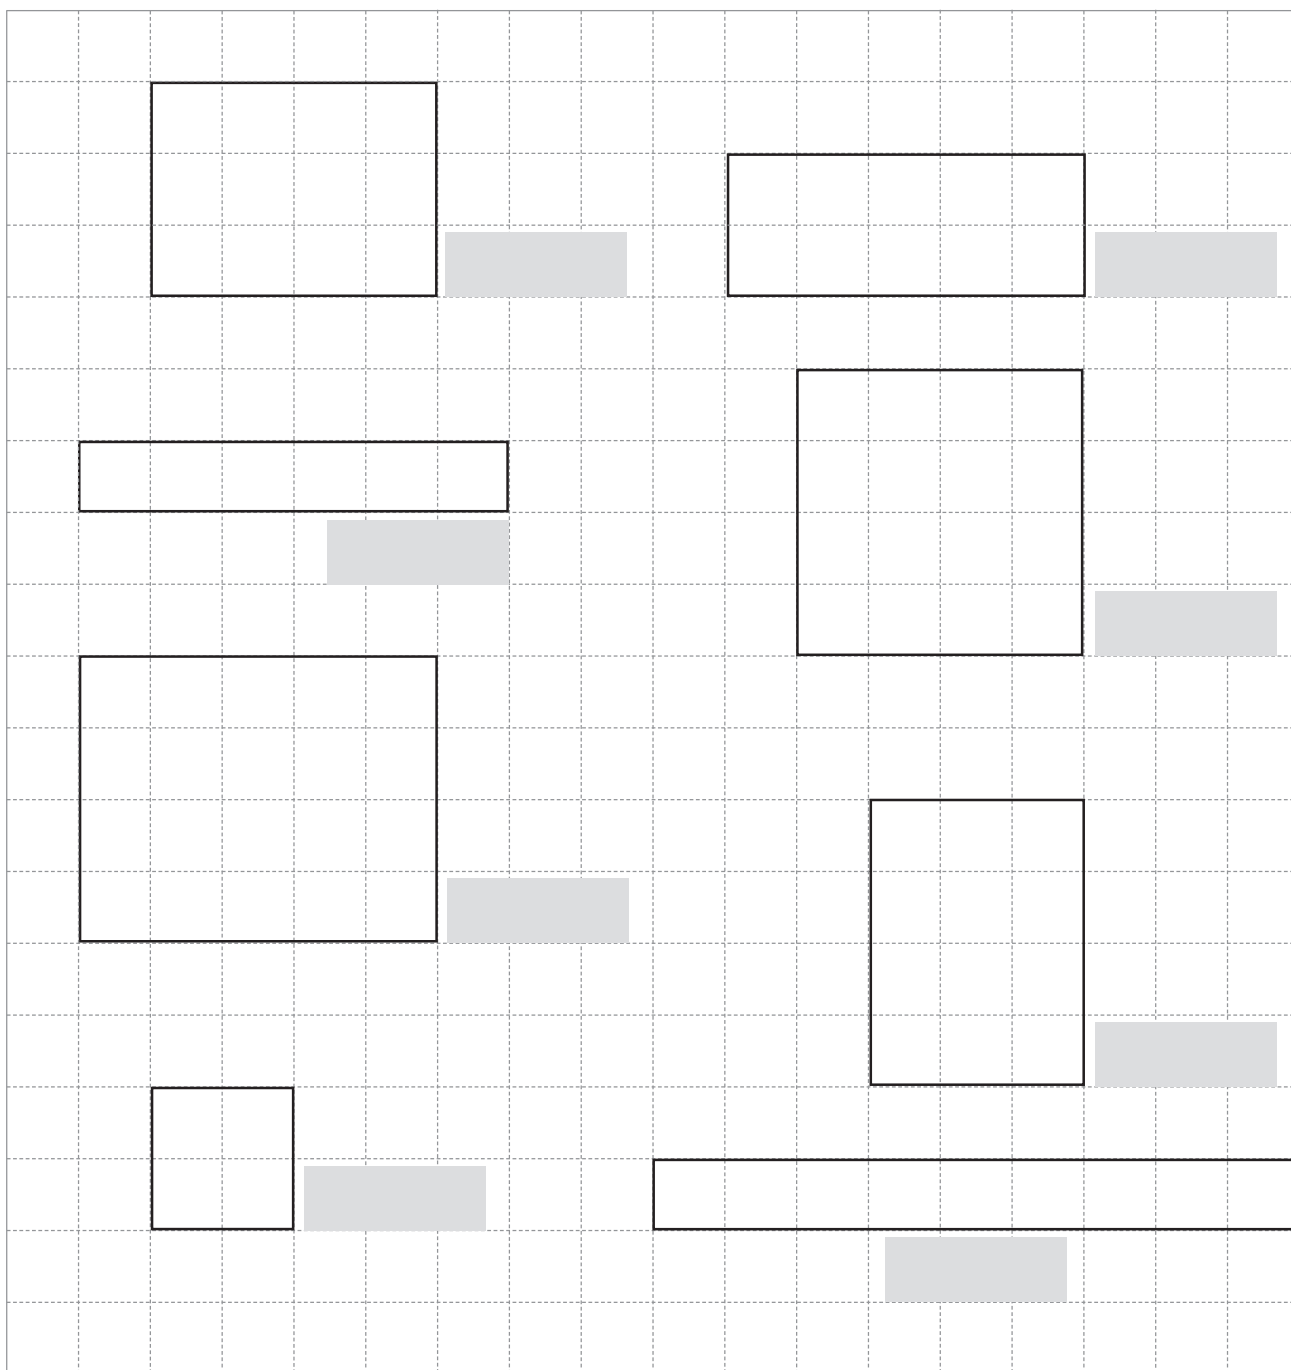

Write the area of the shape in the answer box.

$$1 \times 7 = 7$$

$$7 \text{ cm}^2$$

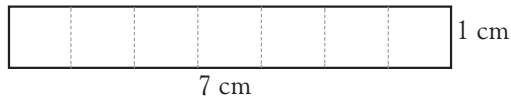

Write the area of each shape in the answer box.

Area

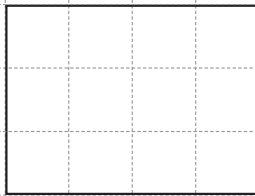

Write the area of the shape in the answer box.

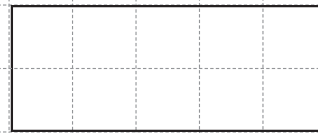

$$1 \times 7 = 7$$

$$7 \text{ cm}^2$$

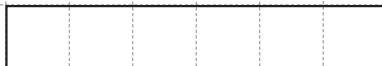

Write the area of each shape in the answer box.

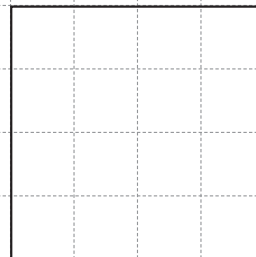

$$12 \text{ cm}^2$$

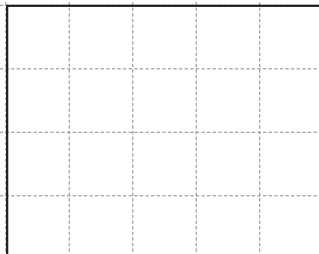

$$10 \text{ cm}^2$$

$$6 \text{ cm}^2$$

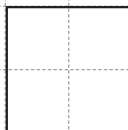

$$16 \text{ cm}^2$$

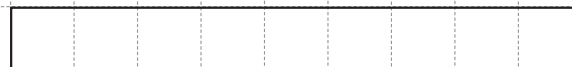

$$20 \text{ cm}^2$$

$$12 \text{ cm}^2$$

$$4 \text{ cm}^2$$

$$9 \text{ cm}^2$$

Since the area of a shape is the amount of space inside it, the number of squares inside each shape gives the area. Children may realize that multiplying one side of a rectangle by the other will give the same result more quickly.
