

Sets of

Say and count as you write.

$$4 + 4 + 4 = \boxed{12} \text{ legs}$$

$$\boxed{3} \text{ sets of } \boxed{4} \longrightarrow \boxed{12}$$

$$8 + 8 = \boxed{} \text{ legs}$$

$$\boxed{2} \text{ sets of } \boxed{8} \longrightarrow \boxed{}$$

$$5 + 5 + 5 + 5 = \boxed{} \text{ legs}$$

$$\boxed{} \text{ sets of } \boxed{} \longrightarrow \boxed{}$$

$$3 + 3 + 3 + 3 = \boxed{} \text{ legs}$$

$$\boxed{} \text{ sets of } \boxed{} \longrightarrow \boxed{}$$

$$2 + 2 + 2 = \boxed{} \text{ legs}$$

$$\boxed{} \text{ sets of } \boxed{} \longrightarrow \boxed{}$$

$$10 + 10 = \boxed{} \text{ legs}$$

$$\boxed{} \text{ sets of } \boxed{} \longrightarrow \boxed{}$$

Sets of

Say and count as you write.

$$4 + 4 + 4 = 12 \text{ legs}$$

$$3 \text{ sets of } 4 \longrightarrow 12$$

$$8 + 8 = 16 \text{ legs}$$

$$2 \text{ sets of } 8 \longrightarrow 16$$

$$5 + 5 + 5 + 5 = 20 \text{ legs}$$

$$4 \text{ sets of } 5 \longrightarrow 20$$

$$3 + 3 + 3 + 3 = 12 \text{ legs}$$

$$4 \text{ sets of } 3 \longrightarrow 12$$

$$2 + 2 + 2 = 6 \text{ legs}$$

$$3 \text{ sets of } 2 \longrightarrow 6$$

$$10 + 10 = 20 \text{ legs}$$

$$2 \text{ sets of } 10 \longrightarrow 20$$

Talk with children about the pictures and what they show. If children have difficulty, make sure that they haven't simply added the two numbers given below the sets: for example, 3 sets of 4 added together to make 7.
