quarter after 9

What time does each clock or watch show?

20 to 4

10 to 7

5 to 8

quarter to 3

20 after 7

25 to 10

half past 12

half past 12

5 after 11

Join each clock to the watch that shows the same time.

Children may need help with answers that are a certain number of minutes to the hour. On the analog clocks, show them how to count back by 5s from the 12 o'clock mark.
